

Saturday 20 January 2007

“Tree Tops Tree Services & Property Maintenance” was contracted to prune and dispose of tree matter in my backyard. They left the gum tree chopped and ready to burn, lopped all other trees required and were most thorough in cleaning up all the debris. Their patience and flexibility during the job was exemplary.

They were prompt to return my phone call and their quote was extremely reasonable.

They was punctual on the day of the job, efficient and very mindful of safe working practices. They were polite to the neighbours and communicated clearly with them regarding trees on the fence line. The neighbours and I were both very satisfied with the result.

Tree Tops Tree Services & Property Maintenance were most pleasant and courteous, reliable workers, with excellent communication skills. Throughout this job they have demonstrated honesty and capability and I highly recommend them for any future tree lopping. They will prove to be a valuable choice for your garden maintenance requirements.

Yours truly,

Georgie Greenwood
